

Dear Friend of Israel and God's chosen people,

First, let me express my gratitude for your faithfulness and obedience in standing with Israel and the Jewish people. Your care and compassion have meant so much to so many — especially since the atrocious attacks on October 7 . . .

For over 40 years, the International Fellowship of Christians and Jews (The Fellowship) has worked tirelessly to build bridges of friendship between our shared faiths. These bridges have remained strong — weathering the storms of anti-Semitism and violence.

And now more than ever, we must stand firmly together — united against Israel's enemies.

But we don't use weapons of war. We lean on faith and hope . . . and use our voices and courage to expose the lies and hate of the anti-Israel sentiment that's alive and active around the world.

As you read this, Israel is surrounded by her enemies. Every single person has been impacted by the war — fighting on physical and spiritual fronts against those who love and worship death.

The world wants to silence us . . . and drown out any voice that stands with Israel . . .

That's why we're praying that you — our greatest, most important friends and allies — will stand courageously with us through our *Flags of Fellowship* event.

More than just a momentary event, we pray *Flags of Fellowship* will create a ripple of movement that will demonstrate to God's chosen people that they are not alone in their suffering and uncertainty.

By displaying 1,200 flags of Israel on October 6, you will honor the 1,200 who lost their lives on October 7 and those taken hostage. And you'll show your community and the Jewish people that you stand with Israel, joining your hearts with ours in crying out to God:

"Deliver Israel, O God, from all their troubles!" (Psalm 25:22).

Thank you for your prayers and your support. And thank you for participating in *Flags of Fellowship* with us at a time when it takes great courage to stand with Israel.

May God bless you.

With blessings from the Holy Land,

Yael Eckstein
